

changing your life

I'm so excited to have you on the team!!

I'm looking forward to our Strategy Session Training.

In order to get the most out of your training, please come prepared by completing as much of the following as possible.

1. Start a contact list and bring it with you, but don't talk to anyone yet! Don't prejudge anyone. Think of young moms/dads, people interested in health/wellness, people with diabetes, eczema, high blood pressure/cholesterol / blood sugar, people who like to work out, people who love to clean, really cautious about food or make-up labels, people who work in daycare, people who love to shop online, etc
2. Watch the [Foundations video](#) in order to qualify for double bonuses!
3. Start watching through the [Learn to Earn](#) videos in order to start unlocking your free product.

Until we get together, please refrain from telling your friends about Melaleuca. We'll cover "how to invite" others to check out our online store and I want to make sure we position you in the right light.

"The future belongs to those who believe in the beauty of their dreams."

- Eleanor Roosevelt
