Value Packs & Home Conversion Packs

Why should you promote them?

1. Value Pack & HC Pack customers make the best customers.
 - * Their average order is much higher.
 - * They try products they might not have ordinarily ordered and are more willing to try new ones.
 - * They become strong believers in the products faster.
2. Value Packs and HC Packs offer the BEST discount.
 - * At \$199 and \$299 respectively, each product basically costs \$5.50.
3. Value Packs can help you advance faster and easier.
 - * Value Packs are worth 100 points. As you advance in the Director ranks, you will have volume requirements. One value pack is almost worth three 35 point orders. So one VP customer almost equals three customers spending 35 points each.
 - * Home Conversion Packs are worth 150 points.
4. Value Packs & HC Packs are exclusive to new customers.
 - * A customer may purchase a Pack in their month of enrollment and in the following month. A customer may order a maximum of two.
